Temple, TX 76502

Trash Can Violation Explanation

There seem to be many questions regarding the correct placement for trash cans. According to the Governing Documents, "trash cans must be stored out of public view except on designated trash collection days". What this means is that trash cans should not be visible from any lot or the street.

Trash cans can be stored in the backyard, garage, or another alternative is a trash can enclosure.

Trash enclosures can be approved by the ACC and built on the side of the home. Below is an example of what they may look like.

ACC applications can be found on the website at <https://villageofsagemeadows.com/ACCProjects.asp>

Picture was taken from behind the trash can enclosure
